

Colloquium on Rheo-NMR

18th August, 2017 (following ICMRM 2017*)

Dalhousie University, Halifax, Nova Scotia, Canada

The Colloquium on Rheo-NMR will focus on **magnetic resonance** techniques used to study materials under **flow and deformation**, including (but not limited to):

- High and low field NMR/MRI hardware
- NMR methodology (spectroscopy, velocimetry, etc.)
- Rheometry techniques and experimental design
- Applications and case studies
- Discussions and strategic planning for advancing the field

Confirmed **invited speakers** include:

- Prof. Dr. Claudia Schmidt, Paderborn University
- Prof. Joseph Seymour, Montana State University, Bozeman
- Asst. Prof. Simon Rogers, University of Illinois at Urbana-Champaign

To register or to submit an abstract for an oral or poster presentation, please contact either:

Tim Brox, tim.brox@vuw.ac.nz

Petrik Galvosas, petrik.galvosas@vuw.ac.nz

This event is offered at **no cost to participants** due to the generous support of the ICMRM 2017, Victoria University of Wellington and Bruker BioSpin GmbH.

*The 14th International Conference on Magnetic Resonance Microscopy, 13th - 17th August, 2017, www.icmrm2017.com
